INTRODUCTION

ENTER . . .

AN INCREDIBLE WORLD

Boot up and step into the astonishing world of Digimon. But proceed with caution.

Can you survive on File Island?

Will your Digimons digivolve?

Can you tell a good Digimon from a bad one?

Your success in navigating the virtual twists and turns of DigiWorld — not to mention this book — will depend on your knowledge of the Digital Monsters, good and evil, that inhabit this digital world.

What level you achieve — In-Training, Rookie, Champion, or Ultimate — will depend on how well you know the ins and outs of all things Digi!

Get ready to download gigabytes of fun!

BACKSPACE ... TO WHERE IT ALL BEGAN

It started innocently enough.

Seven kids were having a ball at summer camp. Then suddenly it began to snow — in the middle of July! This was their first clue that something very weird was going on. None of them, however, had any idea just *how* weird things were about to get.

Brilliant streaks of rainbow-colored light poured down from the sky surrounding the seven campers. With a blinding flash, they were suddenly transported from the comfortable, friendly, familiar world they all knew into a

bizarre new reality —
the Digital World.

This eerie place —
called DigiWorld —
seemed oddly familiar,
yet very different
from any place they
had ever been.

And then things got
even weirder! Each of the

seven kids — **Tai**, the leader; **Sora**, the brave but cautious one; **Matt**, Mr. Cool; **T.K.**, Matt's sweet little brother; **Izzy**, the computer whiz; **Mimi**, daddy's little princess; and **Joe**, the worrywart — met small friendly creatures who instantly became their pals.

These strange but friendly life-forms were the Digimons — Digital Monsters — that inhabit DigiWorld. But the kids quickly discovered that not all Digimons are cute and friendly. Some are evil and really, really nasty. Still others are usually nice, but are being controlled by evil Digimons.

And so the adventure in DigiWorld began.

S H I F T . . .

I N T O D I G I - M O O E

But if you're a Digimon fan, you probably know all this! Plus a whole lot more about these incredible creatures, the seven Digidestined kids who enter their world, and the fantastic DigiWorld itself. But how much do you *really* know?

This book is filled with cool questions, quizzes, puzzles, jokes, and tons of fun and facts about all things Digi. Of course, the answers are provided at the end of the book, but it's more fun if you don't peek! See if you can meet the challenge.

CONTROL . . . YOUR DIGI-IP

Are **you** Digidestined? Are you the world's biggest Digimon fan? How much do you really know about Tai, Sora, Matt, T.K., Izzy, Mimi, and Joe? And how much do you know about all the Digimons, the stages through which they digivolve, the evil Digimons, and the entire DigiWorld? Check out the fill-ins, true-and-false quizzes, multiple choice questions, and puzzles to find out. It's time to grab your Digivice and dive into DigiWorld!

When you're finished, give yourself one point for each correct answer. Then, using the key on the last page of the book, find out if you are In-Training, a Rookie, a Champion, or an Ultimate.

Good luck!

DOT-T-O-DOT, DIGI-T-O-DIGI I

Connect the dots on this page to meet the leader of the Digidestined children. Then connect the dots on each of the next three pages to see this kid's Digimon digivolve.

Connect the dots on this page to meet a Micro Type, In-Training-level Digimon, who is partner to the kid on the previous page.

Connect the dots on this page to meet a Reptile Type, Rookie-level Digimon, who digivolves from the Digimon on the previous page.

Connect the dots on this page to meet a Dinosaur Type, Champion-level Digimon, who digivolves from the Digimon on the previous page.

FASCINATING TRIVIA FACTS

Congratulations! You made it through the whole book and are about to find out what level Digi-fan you have digivolved to: In-Training, Rookie, Champion, or Ultimate. Before you add up your points, here are some more facts any Digi-Expert needs to know.

- ① Digimons are artificial life-forms that originated in a computer network.
- ① A Digital Monster is created when a self-aware computer virus absorbs various data from a computer network. The virus changes its form, then grows and evolves in the Digi-World.
- ① Digimons differ according to the type of information they copied when they were formed. Some Digimons copied shapes of creatures like dinosaurs, insects, unicorns, or dragons.
- ① Some Digimons were created from software in karaoke machines, others from dictionary software.

- ① It is only when Digimons are befriended by humans that they can digivolve into the strongest Digimons.
- ① Digimons need two things to digivolve: 1) a human partner in danger; and 2) lots of energy.
- ① The DigiWorld was formed as computer networks spread all over the Earth. As the virtual space that links computers expanded, so did the size of the world in which the Digimons live.
- ① In the DigiWorld, data takes on substance, sometimes in really strange ways. For example, a telephone booth might suddenly appear in the middle of a secluded beach. Or a waterfall might start pouring down from a clear blue sky!
- ① The DigiWorld is a shadow of the real world. That means, that whatever happens in the digital world can take some kind of form in the real world!
- ① The seven Digidestined children who enter DigiWorld are just computer data when they are inside that world.
